

Pax Lodge

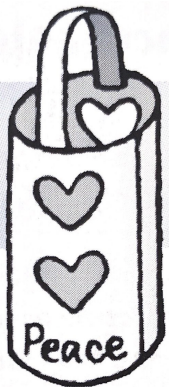

Pax means peace, so we'd like you to make a peace dove. Draw the outline of a dove and cut it out. Then draw round your hands, cut out and curl the fingers. Stick the paper hands on each side of the dove.

Or you could make an origami (paper folding)

peace crane - this is trickier. https://www.girlguiding.org.uk/globalassets/docs-and-resources/programme-and-activities/adventuresathome/rangers_legendof1000cranes.pdf

We'd also like you to make a light lantern. Use your imagination, make a paper tube, you could cut holes in it then the light can shine through. Maybe use an old toilet role tube with some coloured paper as the flames inside.

With supervision, girls can use an empty clean tin can, a hammer & nail to create a lantern. Tap holes in a pattern into the can. An adult should help to make sure you do it safely.
